PROFILE

Passionate about technology, I transitioned from a role in an Amazon warehouse to pursue a career in Web Development. Sponsored by Amazon, I successfully completed a comprehensive program at OpenClassrooms, acquiring robust skills in web development.
Currently on the cusp of completing this exciting journey, I am ready to channel my energy and newfound technical proficiency into a dynamic Web Developer role. Grateful for the support and learning opportunities provided by Amazon, I am eager to contribute my expertise to a team that values innovation and digital excellence.
